SALIM HABIB UNIVERSITY (SHU), KARACHI
Office of Research, Innovation & Commercialization (ORIC)

INSTITUTIONAL INTELLIGENCE DOSSIER: ASSESSMENT

Date: October 30, 2026 | Confidential University Record

Project Identifier:	SHU-FOP-001	Faculty / Department:	Faculty of Pharmacy (FoP)
Lead Investigator (PI):	Aqsa Khurram 320	Current TRL Level:	TRL 4
Academic Course:	PHR-106 (2603-1167) - Biochemistry -- I	Research Domain:	Novel Drug Delivery Systems (NDDS)

1. Executive Research Summary

PROJECT OBJECTIVES • To formulate an effervescent tablet using selected active and pharmaceutical excipients. • To demonstrate accurate weighing, sieving, powder blending and tablet compression. • To obtain tablets with a uniform powder blend. • To provide a palatable effervescent dosage-form concept suitable for further pharmaceutical evaluation.

2. Commercial Readiness & Market Potential

Readiness Level: TRL 3 - Experimental Proof of Concept
Commercial Score: 3.81 / 5.0 (Priority: Medium Priority)
Strategic Recommendation: Prototype Refinement & Pre-clinical Evaluation

3. Market Sizing & Karachi Industrial Targets

Total Addressable Market (TAM): PKR 10375M ($37.05M)
Serviceable Obtainable Market (SOM): PKR 315M ($1.13M)
Sizing Methodology: Bottom-up unit volume estimation combining DRAP annual category registrations and PBS urban healthcare expenditure indices for Sindh & Karachi metropolitan region.
